

1. In Lab 3, you wrangled data from Essentia, Essentia models and LIWC. Rework your solution to Lab 3 using **tidyverse** (Wickham et al., 2019) instead of base R. Specifically, rewrite your code for steps 1-4 of task 2 using **tidyverse** (Wickham et al., 2019). Make sure to address any issues I noted in your code file, and ensure that your code runs in the directory as it is set up.
